OVERVIEW

The majority of data and analysis within the Africa Prosperity Report is taken from the Legatum Prosperity Index™, a unique and robust assessment of global wealth and wellbeing for 142 countries.

The Index is comprised of 89 individual indicators divided into eight distinct categories. The ranks of the 38 African countries included in the Africa report are calculated using the same methodology as the global report.

Zimbabwe ranks 25th in Africa in the 2014 Africa Report, having risen eight places since 2012.

Zimbabwe's best performance is in the Education sub-index, where it ranks 7th in 2014.

Zimbabwe's lowest rank is in the Governance sub-index, where it ranks 35th in 2014.
