“ National prosperity goes beyond quantitative measures like economic growth. We welcome the introduction of the Prosperity Index as a measure of human progress and the real ‘wealth’ of nations.”

TONY ELUMELU, CHAIRMAN OF HEIRS HOLDINGS AND FOUNDER OF THE TONY ELUMELU FOUNDATION

“ Africa’s next generation of leaders need to deliver prosperity. But prosperity does not mean GDP growth only. This report helps us understand how to define prosperity and see how it is changing across Africa. The Legatum Institute’s multi-faceted definition of prosperity provides a truly comprehensive picture of progress in Africa.”
